

THE SIDE TABLE SERIES

CUTTING LIST

All materials can be obtained from one board,
1" x 9" x 8' | 25mm x 230mm x 2.4m

We prep the full board in Chapter One of the Series & recommend watching through before making any cuts.

* N.B The top is glued up from two boards. The final overall width is 16 1/4" | 413mm. This will be cut to final width after the glue up, & we suggest using two boards ripped oversize at a width of 8 1/2" | 216mm.

The lengths provided below are final, and each component should be cut around 1/8" | 3mm longer to start. Allow slightly extra still on the length of the top boards.

PART NAME	QTY	FINAL THICKNESS	FINAL WIDTH	FINAL LENGTH
* TOP	2	3/4" 19mm	8 1/8" 206mm	20" 508mm
LEGS	4	7/8" 22mm	1 3/4" 44mm	20" 508mm
APRONS	2	3/4" 19mm	2" 51mm	18" 457mm
